Welcome to Exocet Studios - Where the People Make the Difference.

Yes, While Exocet does have an impressive equipment list (coming soon) most of our clients come to Exocet to record with us because of our engineers, producers, acoustically designed rooms and relaxed creative environment.

Our recent clients include

The Marvelous 3, Aquarium Rescue Unit, Memory Dean, Wil's Drama, Edwin McCain and more...

We would like to announce the opening of our new Studio C with it's spacious "Control Room with a View" and it's 16,000 cubic foot main recording room featuring vaulted 17 foot ceilings.

This Site uses Real Audio. Download your Free Realplayer Now !!
